Essences Description Manual

History:

Equilibrium has been selling Essences for nearly 20 years. In the past we have been providing information on these Essences in the form of individual brochures, flyers and copies of descriptions etc. which has proven to be a less than efficient method of disseminating the material. As a consequence this manual has been published to make the material more easily accessible and readily available in a consistent and readable format. It is can also act as a valuable reference manual, particularly in the Kinesiology field. As such, we do make it available at a minimal cost.

Acknowledgements:

Our gratitude & thanks goes to all the essence providers who have so willingly and kindly allowed their essence information to be printed in this manual. Special thanks to Brendan Rohan of Skyflower Essences, for the gentle pushing and the inspiration to help bring this manual to fruition.

Prices Quoted:

Because this manual can be used as a long term reference, prices quoted herein will become outdated. They are current at the time of last publication, but please enquire about any updated prices before ordering.

Messages from Shells \$33.00

The wonderful story of Nancy Parker's journey and how the shells became vibrational essences for healing. When Nancy asked the shells - or their guiding spirit - how the Shell Essences 'worked' she was 'told' there were no words or even concepts we would be able to understand from our linear perspective. The Shell & Coral Essences do not claim to 'cure disease', nor to replace appropriate treatment. They help us by removing, bit by bit, the negative energy encrustations which prevent us experiencing the beautiful being within.

Alchemy of the Desert. Cynthia Athina Kemp Scherer...\$66.00

The Complete & Comprehensive Guide to the Desert Flower essences. Describes in detail the 119 desert essences and the 47 composite formula. Includes cross reference guide. 570 pages.

These breath taking panoramas have been exquisitely captured in the colour photographs which accompany the text. The book will lead you through each essence's unique spiritual and soul healing qualities which can be utilised in both personal and practitioner application.
