

Wild - Creations

Wands, Staffs & other products crafted from Australian coastal Tea-Tree.

The wood texture of Coastal Tea Tree shows an amazing array of twists, dimples and crevices that appear to come straight from 'Lord of the Rings'.

Wild - Creations

All pieces are made from the dead wood of
Tea Tree branches and sticks

- ◆ **Features:** Some of the individual features of each wand may not show up in the photographs, hence we have offered descriptions.
 - ◆ Some pieces have 'crystal windows'. These are windows in the wood through which one can see the base of the crystal used.
 - ◆ Other unusual features may exist such as wood borer patterns (generally a sine wave pattern), and patterns of colours left by any fine layers of residual bark.
 - ◆ Unless otherwise described the natural form of the crystal is presumed. Where crystals have been polished we have used the term 'polished', 'semi-polished' or 'tumbled', for example.
- ◆ **Finishes:** Many pieces are finished with Bees Wax. Others with Linseed Oil or other natural oils. Sometimes no finish is applied as the odd piece may be best appreciated in its natural state. However natural oils/waxes can be applied to the wood at any time for protection or maintenance.
- ◆ *All pieces are crafted with loving attention and care. They are also strong & sturdy.*
- ◆ **Uniqueness:** Each item is unique and a small certificate of ownership accompanies each purchase.
- ◆ **Crystals:** may come from various places in the world. The maker has over 25 years experience in dealing with crystals.
- ◆ **Sales:** If any pieces are already sold but you are interested in something similar, let us know.

Staffs

Amethyst Staff

Item # S013 **\$375**

Height: 1.42 metres

Average Width: 13 cm

Terminations: Twin terminated Amethyst Point(s) at top end of staff.

Finish: No Finish has been applied to this piece (however one

may apply natural oils at anytime for long term maintenance)

Features: The Amethyst point is actually a twin. Also two crystal windows/openings show the base of the crystal. There are literally dozens of crevices and dimples in this piece of all shapes and sizes, creating a texture like a flowing river up the entire length. A distinct bend in the staff appears near the top end, which is actually very nicely placed for gripping the staff when standing upright.

Clear Quartz Staff

Item # S014 **\$430**

Height: 1.46 metres

Average Width: 14 cm

Terminations: Clear Quartz Point

Finish: No Finish has been applied to this piece (however one may apply natural oils at anytime for long term maintenance)

Features: The top end features a beautifully shaped clear quartz point that is, in full length, 17cm long. Generally light coloured wood, textured with an array of dimples and crevices along the entire length. This staff has a slight curve around the middle and has very smooth and flowing feel.

Wands

Features: Exhibits a 1.5 cm crystal window at the LS Quartz end. Full length of LS Quartz Point is 8.5 cm. Lovely Ametrine tumbled at other end (with tiny crystal window). Wood has exquisite curve, almost like a twist.

Selenite & Rose Quartz Wand

Item # W004 **\$73**

Length: 43cm

Average Width: 3.5cm

Terminations: Polished Selenite & Tumbled Rose Quartz

Finish: Bees Wax

Features: One of our longest wands. Long polished Selenite piece at one end. Multi-coloured wood.

Clear Quartz & Smoky Quartz Wand

Item # W005 **\$67**

Length: 33cm

Average Width: 2.75cm

Terminations: Clear Quartz Point & Polished Smoky Quartz Piece.

Finish: No finish has been applied

to this piece (however one may apply natural oils at anytime for maintenance).

Features: Nicely shaped 6 cm Clear Quartz at one end and a glossy looking clear smoky polished piece with small crystal window at its end. This wand has wonderful markings and colourings including an obvious stretch of borer marks. It is relatively long and thin.

Clear Quartz & Kyanite Blade Wand

Item # W006 **SOLD**

Length: 32cm

Average Width: 3cm

Terminations: Clear Quartz Point & Kyanite Blade.

Finish: Bees Wax

Features: Superbly shaped Kyanite blade for a wand. This wand is, over its length, very straight (relative to others listed), but does show the usual twists & dimples along its length.

Clear Quartz & Amethyst Wand

Item # W007 **SOLD**

Length: 29cm

Average Width: 2.5cm

Terminations: Clear Quartz Point & Tumbled High Grade Amethyst.

Finish: No Finish has been

applied to this piece (however one may apply natural oils at anytime)

Features: The amethyst piece has been nestled into the base of the wand. This wand is one of our thinnest, but has a higher degree of interesting markings, bumps and colours.

Tibetan Quartz & Blue Lace Agate Wand

Item # W008 **\$57**

Length: 27cm

Average Width: 3.5cm

Terminations: Tibetan Quartz Point & Tumbled Blue Lace Agate.

Finish: Bees wax

Features: This wand has a 'chunky' tibetan quartz point at one end. The wood itself is darker in colour than other wands - showing dark to very dark browns.

Kyanite & Amethyst Wand

Item # W009 **SOLD**

Length: 30cm

Average Width: 4cm

Terminations: Kyanite Blade & Tumbled Amethyst

Finish: Bees wax

Features: One of our thicker wands and sits well in the hand. Long (8.5cm), thick, well proportioned Kyanite Blade at one end with an open window at the base. One side of the wand is darkish brown and the other is lighter.

Tibetan Quartz & Tiger Eye Wand

Item # W010 **\$88**

Length: 35cm

Average Width: 3.5cm

Terminations: Double Terminated
Tibetan Quartz & Tumbled Tiger
Eye

Finish: Bees wax

Features: This wand has a few unique features: One is the Double Terminated Tibetan Quartz at one end. It is a whopping 12 cm long and includes phantoms as well as the usual black inclusions that define Tibetan Quartz. The Tiger Eye sits perfectly at the other end with a crystal window. Beneath the Tiger Eye are tiny rose quartz pieces that one can just glimpse through the window and also one can hear them slightly rattle. This wood is quite dark on one side and one third of the way up the wand a dog tooth amethyst piece.

Golden Healer Lemurian & Black Tourmaline in Quartz Wand

Item # W011 **SOLD**

Length: 28cm

Average Width: 2.5cm

Terminations: Golden Healer Lemurian Quartz & Tumbled Black Tourmaline in Quartz

Finish: Bees wax

Features: A small, light wand with abundant dimples and mild curve. Has a Golden Lemurian Quartz at one end with a crystal window. Golden Healers have a soft, pink-orange hue. At the other end is nicely shaped tumbled quartz piece with a number of obvious black tourmaline streaks, as well as an very clear and perfect crystal window.

Chevron Amethyst Chunky Wand

Item # W012 **\$89**

Length: 43cm

Average Width: 7cm

Terminations: Large chunk of Chevron Amethyst at one end only (a crystal at the other end perhaps

can be organised upon request).

Finish: No Finish has been applied to this piece (however one may apply natural oils at anytime for long term maintenance)

Features: The feature of this wand has to be its 'chunkiness'. It is very thick. The Chevron Amethyst piece appears to be perfectly made for the job at the end. Two open crystal windows clearly show the crystal entering into the wood. The wood is generally light coloured and has some very deep, interesting crevices & dimples. This is 'wow' piece, and goes beyond day to day use as a healing wand - perhaps can be a show piece as well or used in rituals etc. Upon request we may be able to organise a crystal at the other end.

Clear Quartz Point & Elestial Quartz Wand

Item # W015 **SOLD**

Length: 49cm

Average Width: 4.5cm

Terminations: Clear Quartz Point & Elestial Quartz with additional crystals (see features below)

Finish: No Finish

Features: A very long wand just under half a metre in length. Sizable Clear Point (9.5 cm) at one end and an exquisite double terminated Elestial Quartz at the other end. The CQ end also has small tumbled Ametrine piece nestled in a crystal window. The Elestial end has a peice in Imperial Topaz nestled in a crevice.

Clear Quartz Point & Amethyst Point Wand

Item # W016 **\$85**

Length: 33cm

Average Width: 5cm

Terminations: Clear Quartz Point & Amethyst Point

Finish: No Finish

Features: Sturdy, solid wand with thick Clear Quartz Point at one end with a crystal window and a beautiful symmetrical Amethyst Point at the other end, including a small crystal gateway. Also has a borer wave running the entire length of the wand.

Clear Quartz Point & Amulet Stone Wand

Item # W017 **\$144**

Length: 38cm

Average Width: 5cm

Terminations: Clear Quartz Point & Amulet Stone with additional crystals (see features below)

Finish: Bees Wax

Features: A long sturdy wand, with many unusual features: Excellent clear 9.5 cm Clear Quartz Point at one end and a polished Amulet Stone crystal (Australian) at the other end. At the clear quartz end there is a crystal gateway and a triad of dog tooth amethyst crystals adorning the quartz point near its base. Near this end there is also a piece of polished Kyanite set in a crevice and around the back is a crystal cave with pieces of small tumbled Amethyst and Rose Quartz. At the other end the Amulet Stone is set in place by 'claws' of wood (2 crystal windows & 2 crystal gateways) that have naturally formed as a result of making the hole for this crystal. Beneath the amulet stone, inside the wand, is a Amethyst Point projecting upwards or (downwards) towards the base of the amulet stone piece. All in all an exquisite, interesting piece.

Tibetan Quartz & Fluorite Wand

Item # W018 **SOLD**

Length: 23cm

Average Width: 2.5cm

Terminations: Tibetan Quartz & Fluorite

Finish: Bees Wax

Features: Small wand with a polished Tibetan Quartz point at one end, which contains some recognisable grey phantoms. At the other end is a piece of tumbled Fluorite with a small piece of tumbled Rose Quartz nestled at its base. The wood has some darkish patches on it. A lovely small wand.

Clear Quartz & Lithium Quartz Wand

Item # W019 **SOLD**

Length: 44cm

Average Width: 4.5cm

Terminations: Clear Quartz Point & Tumbled Lithium Quartz

Finish: Bees Wax

Features: A long wand with a long Clear Quartz Point (full length 10cm) at one end with a small crystal gateway. At the other end is a tumbled piece of Lithium Quartz showing the typical lilac colour within. There is also a small crystal gateway and close by a piece of tumbled Citrine nestled in a crevice. A noticeable feature of this wand is the small pieces of tumbled citrine, rose quartz and amethyst nestled in crevices along the entire length of the wand. The wood shows a varied colours and markings, adding to an already remarkable piece.

Smoky Lemurian and Amethyst Wand

Item # W020 **SOLD**

Length: 25cm

Average Width: 33cm

Terminations: Smoky Lemurian Laser & Tumbled Amethyst

Finish: No Finish has been applied to this piece (however one

may apply natural oils at any time for long term maintenance)

Features: Small wand with a sharp Smoky Lemurian Laser at one end including a tiny crystal gateway. At the other end is a tumbled amethyst piece. A feature of this wand is that below base of the smoky quartz there is a crystal window with a perfectly placed tumbled Rose Quartz inside. The piece is not set firm and rattles as it moves and also can turn around inside the wood.
